1. The SKK has established a reserve of 150 boxcars, which are held at Schwerin, Waren, Güstrow and Malchin. The condition of these cars is periodically inspected by RBD Schwerin.
2. A new loop station (Kreuzungsbahnhof) between Züssow and Greifswald began operation on 15 January. The length of the loop line is 850 meters.
3. The section Ludwigslust-Neustadt (Dosse) carries approximately 60 trains a day, but as there is only single tracking, delays are frequent. Plans to double-track this section cannot be carried out as there are no lines available.
4. A loading station, together with a loop line of 800 meters length, is under construction between Greifswald and Züssow. The work is being supervised by the RBD Greifswald.
5. Three additional loop lines, each of 800 meters, have been laid in the section Wismar-Karow, at Warkstorf, Neukloster and Below.
